# MoveInSync review monitor

2025-10-30T03:46:28.887037 to 2026-10-30T03:46:28.887037 · Rolling 365 days

Coverage: cutoff_reached. Read limitations below.

## Review sample

2,794 reviews · Average 3.844 · One-star share 23.91%

753 one/two-star reviews; 822 one/ two/three-star reviews used for issue triage.

285 reviews need closer inspection; 309 have no rule match.

Among these low-rated reviews, 107 contain only general feedback, 197 remain unclassified, and 5 have a possible rating/text mismatch. See the labelled CSV for every status.

Store snapshot rating: 4.640083; total ratings: 115612. Separate from the sample average.

## Recent periods

| period | n | average | one_star_pct |
|---|---|---|---|
| Latest 30 days | 217 | 3.843 | 24.88 |

| | | | |
|---|---|---|---|
| Previous 30 days | 244 | 3.836 | 25.0 |

## Suggested actions

Rule-matched signals, not confirmed defects. Priority uses a predefined severity order, then matched count; validate scope and effort with the owner.

### P0 · Safety investigation

9 matching reviews (1.09% of 1-3-star reviews)

0 matches in the latest 30 days. Examples below are selected for detail, not necessarily recency.

**Owner:** Mobile + safety operations

Reproduce reported emergency-access or unsafe-trip concerns urgently; verify escalation and acknowledgement. Reports are unverified.

**Measure:** Emergency-action reachability and acknowledgement

> Keeps logging out after every 5 to 10 mins of inactivity on the app. Logging in again requires authentication via company's app which is time consuming. Also this poses a problem especially for female passengers who want to report something urgently or send an SOS but are force logged out and have to do the whole long procedure of logging in
> 2026-05-13 19:26:35 · 1 stars · Version 12.12.2 · Review 6855f79d-f54e-4ce7-9a7f-213677cec9d1

> Too much pop up notification, which won't close easily. even you close the app and restart again it will show pop up notification nothing to display but no close option. frustrating experience. If someone needs to use SOS button, he/she can not use in timely

> manner due to useless notification pop ups
> 2026-09-09 16:14:08 · 2 stars · Version · Review b1814d48-3e54-4903-a109-e09e05bc3145

> SOS doesn't works
> 2026-01-01 18:35:57 · 1 stars · Version 12.8.2 · Review fcbeda69-1dac-41ed-8b3c-d55c0732debe

## P1 · App stability

126 matching reviews (15.33% of 1-3-star reviews)

11 matches in the latest 30 days. Examples below are selected for detail, not necessarily recency.

**Owner:** Mobile + QA

Reproduce launch, install-source, crash and performance complaints by device and version; do not disable integrity protections.

**Measure:** Successful launches and crash-free sessions

> mobile number is not visible once cab is booked, I can not see latest notification, since seems like notification stack full and never notification can not be shown. for every button click it is asking for policy acceptance, which is very unprofessional. overall user experience is very bad. many bugs and a lot of improvement required. completely unhappy with incorrect app functioning
> 2026-10-05 08:07:30 · 1 stars · Version 12.19.0 · Review bc736dc0-8fd1-45e8-b39e-b16020a4e2f7

> Barely works for metro bookings. Even after trying to tell the issues I faced multiple times, seems to have fallen on deaf ears, or they haven't bothered to fix it yet. 1. Goes to full brightness the moment you choose metro ticket option. It is unrequired and doesn't work on all Metro stations with full brightness for high brightness phones. 2. Offline ticket unavailable. stranded if network issues during exit or app server unreachable. 3. Bug when booking ticket once. Ap says booked but no QR
> 2026-10-03 00:45:17 · 2 stars · Version 12.19.0 · Review d980e749-b3df-4f90-ba1a-0987168cfe13

> The Move In Sync app crashes frequently, making it unreliable for daily use. App stability needs serious improvement. It would be very useful to have a feature to add colleagues to Favorites, allowing users to check their login and logout timings and match schedules on a daily, weekly, and monthly basis with transport details on click. This would greatly improve coordination and planning. The app has good potential, but performance issues and missing features reduce the overall experience.
> 2026-01-10 12:39:30 · 2 stars · Version 12.7.2 · Review b6720df1-55f7-4ab4-a4f6-6ae7025e91e1

## P1 · Booking reliability

89 matching reviews (10.83% of 1-3-star reviews)

8 matches in the latest 30 days. Examples below are selected for detail, not necessarily recency.

**Owner:** Mobile + backend + QA

Test date/time selection and confirmation versus trip-list state; show confirmed/waitlisted status and stable booking IDs.

**Measure:** Booking success and confirmed-trip visibility

> mobile number is not visible once cab is booked, I can not see latest notification, since seems like notification stack full and never notification can not be shown. for every button click it is asking for policy acceptance, which is very unprofessional. overall user experience is very bad. many bugs and a lot of improvement required. completely unhappy with incorrect app functioning
> 2026-10-05 08:07:30 · 1 stars · Version 12.19.0 · Review bc736dc0-8fd1-45e8-b39e-b16020a4e2f7

> They provide pickup and drop to the middle of nowhere from where its double work reaching our home or office from their stops. Very bad service. Today to pickup 3 people they send a 12 seater TT moreover the pickup was supposed to be at 11 the driver reached almost 40 minutes late. Most of the employees will avoid taking their services since it's so terrible. They're not ready to add more stops or improve the service. Also certain stops which are available during pickup disappear at drop booking
> 2026-08-21 12:53:54 · 1 stars · Version 12.17.0 · Review 83accd38-8f36-4604-8d48-7f1064ff7782

> The recent updates in the UI have made the app very difficult to use. Booking a shuttle is now a 2 step process previously it used to be 1. I got confused and thought I had booked a cab while I hadn't. Was too late in realising that. Such major changes need to be released in a better way rather than just throwing them in the user's face. Another bad thing is even though I am in 1 cab but I can see all the ones available for that time. I don't need to see others, just show me mine.
> 2026-07-07 15:52:23 · 1 stars · Version 12.14.1 · Review 6663f7b1-7087-45e5-9320-c8a7fbfc6307

## P1 · Authentication

62 matching reviews (7.54% of 1-3-star reviews)

7 matches in the latest 30 days. Examples below are selected for detail, not necessarily recency.

**Owner:** Authentication + mobile

Separate OTP delivery failures from session expiry; reproduce affected login paths and respect enterprise SSO policies.

**Measure:** Login success, OTP delivery and unexpected session expiry

> This app is going from bad to horrible. The seat buckle verification is absolutely horrendous and the OTP keeps disappearing behind the seat belt check. To top it all, ads are being introduced. Why is there not some cache wherein a user has their ride details stored? instead it needs a network call every time you open the app which is annoying when you're underground without much internet
> 2026-09-30 17:04:46 · 1 stars · Version 12.11.2 · Review e12ed49a-d376-4cf2-9cfd-45cae0162feb

> Nice and easy to use app. But sometimes accidental touches on the phone is resulting in trips being unintentionally cancelled, this causes stress and frustration for people logging out in early morning like 3 AM IST. Hence please put a safety feature which requires multiple confirmation for cancelling a trip, so that any accidental touches on the phone doesn't cancel a trip.
> 2026-05-07 14:22:34 · 3 stars · Version 12.12.0 · Review 85455a4a-72ff-4393-b8a9-2edfafa0146e

> Most frustrating aspect of this app is, when cab is waiting for you and you are in hurry, you will be logged out with no access to cab number/otp/call option to helpdesk etc. We do get regular SMS but what if we have to contact driver/help desk?? This is possible once when we can access the app!!! App team should be mindful about the frequency of logouts. I use multiple workplace apps like smartq, pluxee etc but non have this issue of suprise logouts that too when you are in hurry!!
> 2025-12-23 06:09:59 · 2 stars · Version 12.8.2 · Review ac0225b4-992e-4b9a-bfd6-3da50f0703fd

## P1 · Blocking prompts

20 matching reviews (2.43% of 1-3-star reviews)

4 matches in the latest 30 days. Examples below are selected for detail, not necessarily recency.

**Owner:** Mobile + product

Make feedback/promotional prompts dismissible and nonblocking; persist consent by policy version.

**Measure:** Access to current trip without mandatory feedback

> mobile number is not visible once cab is booked, I can not see latest notification, since seems like notification stack full and never notification can not be shown. for every button click it is asking for policy acceptance, which is very unprofessional. overall user experience is very bad. many bugs and a lot of improvement required. completely unhappy with incorrect app functioning
> 2026-10-05 08:07:30 · 1 stars · Version 12.19.0 · Review bc736dc0-8fd1-45e8-b39e-b16020a4e2f7

> Why has the timing changed? When four people were assigned, the cab came at 5:00 AM. Now that there are only two of us, the cab is scheduled for 4:30 AM, which feels completely unfair. and additionally we don't have an opportunity to reject the terms and conditions if you don't like that t&c. only one option "I AGREE"
> 2026-04-09 02:39:07 · 1 stars · Version · Review 01b69a5a-3cd8-4493-bc04-073c899ecd83

> please remove your annoying popups. its very very difficult to close them and they keep on coming back. I am not able to schedule my ride. what kind of fully useless developer build such a pathetic app.. shame on them. don't you know what is your core user journey. why it has to be behind annoying popups.
> 2026-04-24 22:52:27 · 1 stars · Version 12.11.2 · Review e43167eb-e2be-4396-960d-accb486f972c

## P1 · Connectivity / offline access

8 matching reviews (0.97% of 1-3-star reviews)

1 matches in the latest 30 days. Examples below are selected for detail, not necessarily recency.

**Owner:** Mobile + backend

Test loss of network during the active trip; preserve permitted trip information with expiry/freshness checks and clear reconnect status.

**Measure:** Access to permitted trip essentials during connectivity loss

> Barely works for metro bookings. Even after trying to tell the issues I faced multiple times, seems to have fallen on deaf ears, or they haven't bothered to fix it yet. 1. Goes to full brightness the moment you choose metro ticket option. It is unrequired and doesn't work on all Metro stations with full brightness for high brightness phones. 2. Offline ticket unavailable. stranded if network issues during exit or app server unreachable. 3. Bug when booking ticket once. Ap says booked but no QR
> 2026-10-03 00:45:17 · 2 stars · Version 12.19.0 · Review d980e749-b3df-4f90-ba1a-0987168cfe13

> -still as horrible as it can be. I had the details loaded on my wifi. I stepped in a no network zone and it logged me out! what security you need that you would log out a user if no network for just some seconds. absolutely sick idiots wasting mornings since years. - stupid app, worse routing algo. picked me up first, then second, and came back to my society after 30 mins for third pickup. - clicking on View ETA opens maps, but adds KING confident speaking before my home address, maybe hacked
> 2026-06-17 09:49:29 · 1 stars · Version 12.13.2 · Review 3b8ea3b9-b52b-4c34-9b1f-cd7a8c93d7ff

> there needs to be an offline mode in case of disconnections to the internet. I'm missing my cab because ETA initially shown was 12 pm, but the driver called at 11:45. once I went to the gate at 11:50 I lost signal and along with it driver details and OTP info. I have no idea what to do in situations like this, as I may not have signal in the pickup area most of the time. to compound the problem ETA changed by 10-15 minutes.
> 2026-01-12 12:32:34 · 1 stars · Version 12.8.3 · Review c4682050-e84d-4490-a694-acd4b981b407

## P2 · Transport operations

90 matching reviews (10.95% of 1-3-star reviews)

6 matches in the latest 30 days. Examples below are selected for detail, not necessarily recency.

**Owner:** Transport desk + dispatch

Investigate routing, allocation and disputed no-shows with operational records before assigning root cause to the app.

**Measure:** Travel-time excess and disputed no-shows

> The transportation service has become one of the most poorly managed employee facilities. The team responsible for route mapping appears to lack even the basic understanding required to allocate employees to the correct routes. Employees residing in the West Zone are being unnecessarily clubbed with East Zone routes, resulting in inefficient transportation planning and unnecessary inconvenience for employees.
> 2026-10-23 23:28:41 · 1 stars · Version 12.20.0 · Review 0cb3c4cb-c7ef-4e97-8ae5-a76e758ed3ea

> MoveOutSync doesn't plan commutes; it plans cross-country pilgrimages. The ETA is an abstract joke where a 1-hour delay is considered punctual. The routing algorithm is pure genius: it clubs passengers from two different states into one cab at 8 AM, while empty cabs glide right past us. If you want a free Bharat Darshan tour before reaching office, this is it. Coding isn't for everyone-

> definitely not for the monkeys who built this. Try copying Routematic fools.
> 2026-10-09 08:22:55 · 1 stars · Version 12.19.0 · Review 7476b129-f0da-458e-8f86-d77ba2f9a710

> 👎👎👎👎👎👎👎👎👎👎👎👎👎👎👎👎who the hell is giving them 5 star ⭐ rating worst punctuation, my cab has to assign on 2:30 am and it's 3:30 am and still no updates. I called twice to there Customer support they are not receiving the call . i have a lots of abusive words for them. i have edited my feedback because I wasn't able to give them feedback twice I'm Using this worst facility because I don't have my personal Bike.
> 2026-10-02 03:18:40 · 1 stars · Version 12.19.0 · Review 724fa773-e6c0-47ec-b76d-8c5ae25850ed

## P2 · Tracking and ETA

79 matching reviews (9.61% of 1-3-star reviews)

5 matches in the latest 30 days. Examples below are selected for detail, not necessarily recency.

**Owner:** Mobile + dispatch backend

Verify stale tracking and pickup-time changes; show freshness and protect permitted trip details during connectivity loss.

**Measure:** Tracking freshness and ETA error

> Worst app ever to commute, the location of cabs are not updated correctly most of the time, and gets updated at the very last moment, making it very hard to track. Also, the helpline/customer service related to it just totally disaster - I would personally have given them a negative rating if possible, never supportive, just long ongoing unsatisfactory calls and overall making a very bad travel experience.
> 2026-10-16 17:54:45 · 1 stars · Version 12.19.0 · Review f7ae1a95-7a1f-4e35-925f-7ff1a99f6922

> As an employee, I am unable to see the pickup locations of my fellow cab mates. Since employees are picked up from different locations, it would be helpful if the app displayed each cab mate's pickup location (for example, Pratap Vihar, Ghaziabad; Vijay Nagar, Ghaziabad; or Sector 62, Noida). This would help us understand the pickup sequence and estimated arrival time more accurately.
> 2026-07-08 02:33:14 · 1 stars · Version 12.14.1 · Review b6566e1a-4d36-4eb4-83d7-506fec1e1823

## P2 · Navigation / address UX

52 matching reviews (6.33% of 1-3-star reviews)

2 matches in the latest 30 days. Examples below are selected for detail, not necessarily recency.

**Owner:** Product design + mobile

Review the cited screen and task, especially address selection and unclear controls; reproduce the user journey before redesigning.

**Measure:** Task completion and avoidable input errors

> The recent updates in the UI have made the app very difficult to use. Booking a shuttle is now a 2 step process previously it used to be 1. I got confused and thought I had booked a cab while I hadn't. Was too late in realising that. Such major changes need to be released in a better way rather than just throwing them in the user's face. > I am extremely frustrated with this app. Booking transport has become unnecessarily difficult because even when I carefully select specific dates, the system ends up creating bookings for completely different dates.To make matters worse, I was reported as a "No Show" despite having made a booking. What is even more confusing is that I then received a notification asking me to rate the trip, yet the system claims I never showed up. How does that make any sense?Fees will be deducted from my salary
> 2026-06-19 02:25:42 · 1 stars · Version 12.13.2 · Review 0b11d7d5-f655-4951-855e-710761f2552e

> Update: I booked on a sunday and automatically the date was of tuesday instead of monday. What kind of logic are you putting here. if it is so difficult then let the person choose the date, why make things difficult for people. Do a testing of your application before adding features. please disable this feature of changing automatically to next day. This creates confusion and often ends up booking for a wrong day.
> 2026-05-11 11:04:43 · 1 stars · Version 12.12.2 · Review f37d4dfa-0e42-4dd4-8ef9-2102bda7dafd

## P2 · Support

45 matching reviews (5.47% of 1-3-star reviews)

7 matches in the latest 30 days. Examples below are selected for detail, not necessarily recency.

**Owner:** Support + customer success

Route complaints to issue owners with specific next steps; link review replies to resolution tracking.

**Measure:** Acknowledgement and resolution rate

> waste app, pathetic service, no two way communication available, Drivers do not take the responsibility to reach the passenger, they stand at one random place which is no way related to the passenger location. They don't have the knowledge of reading google maps. Pathetic Response from Admin team as they keep phone switched off. This is really ridiculous and keep the blame on passenger. Hopeless Service. They do not deserve even that one star.
> 2026-10-21 05:20:34 · 1 stars · Version 12.20.0 · Review 17d8c9b9-0bd1-434e-ab06-29559cb45d5d

> this is pathetic app . looks like no proper testing before release is carried out . To be frank college students write better sw than this company. 1. Everytime I logging in , it requests me to accept "Transport policy" WHY ? 2. Say I board the shuttle I'm supposed to scan the QR code , Guess what without turning on torch the app is unable to read the QR (even under well lit condition) .
> 2025-11-24 17:22:46 · 1 stars · Version 12.7 · Review af35c47e-62d8-4f2d-b337-10375b091a8d

## P2 · Feedback controls

8 matching reviews (0.97% of 1-3-star reviews)

0 matches in the latest 30 days. Examples below are selected for detail, not necessarily recency.

**Owner:** Product + mobile

Test whether users can voluntarily submit all rating levels and written feedback; distinguish feedback controls from public review sentiment.

**Measure:** Feedback submission success and available rating choices

> The Move In Sync app needs to seriously rethink its rating system. It’s frustrating that users are only given options like 4 or 5 stars, with no way to rate 1, 2, or even 3. This completely undermines transparency and fairness. A rating system should reflect genuine user experience — both positive and negative. By limiting feedback to only high ratings, it creates a misleading impression and doesn’t allow users to express real concerns or dissatisfaction.

> location and its root is accurate many times, hangs for unknown reasons, no feedback option to feedback about the app, it has a lot of sleeping defects, if it's not improved the app will reach the end of life soon.
> 2026-08-26 21:09:00 · 1 stars · Version 12.17.0 · Review 25656a47-c872-4e03-baa7-861134241f1f

> there is no option to skip the feedback for the trips. Its forcing us to give the feedback. better to add the skip option in that screen
> 2026-05-10 23:53:48 · 1 stars · Version 12.12.0 · Review ddbbdfde-e72f-4977-9a24-aa87fdc80490

## P2 · Workplace / parking

8 matching reviews (0.97% of 1-3-star reviews)

1 matches in the latest 30 days. Examples below are selected for detail, not necessarily recency.

**Owner:** Workplace product + backend

Investigate parking/desk allocation, stale bookings and floor selection separately from transport self-booking.

**Measure:** Valid workplace reservations and correct allocation visibility

> Most frustrating aspect of this app is, when cab is waiting for you and you are in hurry, you will be logged out with no access to cab number/otp/call option to helpdesk etc. We do get regular SMS but what if we have to contact driver/help desk?? This is possible once when we can access the app!!! App team should be mindful about the frequency of logouts. I use multiple workplace apps like smartq, pluxee etc but non have this issue of suprise logouts that too when you are in hurry!!
> 2025-12-23 06:09:59 · 2 stars · Version 12.8.2 · Review ac0225b4-992e-4b9a-bfd6-3da50f0703fd

> There should be an option to directly search for seat number instead of using the map. There should be an option to set default floor in app and portal. Multiple times for multiple people, the seat number (booking shows but without desk allocation) gets removed for bookings which is a major bug
> 2026-08-31 20:22:22 · 1 stars · Version 12.18.0 · Review da4ad9ad-acbe-4600-8d32-46883fab9fdd

> This is a third class app which is not at all user friendly for employees, this is just made to the convenience of vendors,Help desk and vendors are not at all helpful on this app...they don't even consider your concerns.... worst transportation app I've ever used.
> 2026-08-17 10:51:44 · 1 stars · Version 12.17.0 · Review f61b87be-2625-4997-88c2-421a89dd01fe

## P2 · Permissions

5 matching reviews (0.61% of 1-3-star reviews)

1 matches in the latest 30 days. Examples below are selected for detail, not necessarily recency.

**Owner:** Mobile + security

Explain each permission and request it in context. Review complaints about mandatory permissions without bypassing justified controls.

**Measure:** Permission-related blocked journeys

> Hi Team, The MoveInSync app is forcing users to grant microphone access, even though it does not provide any direct in-app calling feature and all calls are routed through the regular phone dialer. Could you please clarify why microphone permission is mandatory? If it is not essential for the core functionality of the app, please stop forcing users to grant this permission and allow the app to function without it. Greater transparency around permission requirements would be appreciated.
> 2026-08-03 10:58:16 · 1 stars · Version 12.16.1 · Review 1f01f748-b40a-488d-914b-b3bcc99a2a6a

> Every time it asks for permission for terms and conditions. several instances it won't allow booking. Last three days raising quarries to issue with booking shuttle for next week. Thousands of employees facing problems still no notification not response.
> 2026-10-27 20:51:56 · 1 stars · Version 12.20.0 · Review c1321773-f1eb-4e94-8cbf-ce68575ca9de

> This app will keep annoying you with permission to your phone microphone even even if I don't want to.. They should respect user privacy and don't annoy user everytime they open app
> 2026-03-09 21:50:39 · 1 stars · Version 12.10.2 · Review 912ee358-1c7b-4cc1-837a-a29b9d80f23f

## P2 · Metro tickets

1 matching reviews (0.12% of 1-3-star reviews)

1 matches in the latest 30 days. Examples below are selected for detail, not necessarily recency.

**Owner:** Metro integration + mobile

Test ticket purchase, QR availability and entry/exit under weak connectivity separately from cab boarding.

**Measure:** Purchased tickets available at entry and exit

> Barely works for metro bookings. Even after trying to tell the issues I faced multiple times, seems to have fallen on deaf ears, or they haven't bothered to fix it yet. 1. Goes to full brightness the moment you choose metro ticket option. It is unrequired and doesn't work on all Metro stations with full brightness for high brightness phones. 2. Offline ticket unavailable. stranded if network issues during exit or app server unreachable. 3. Bug when booking ticket once. Ap says booked but no QR

## Method and limitations

- Rule-based triage, not validated theme prevalence or a causal diagnosis.
- Tools: Python standard library and google-play-scraper. Development and initial review were assisted by Claude and ChatGPT; runtime analysis uses no LLM API.
- Recommendations use predefined engineering playbooks and require review.
- Generic feedback without a concrete issue is retained separately, not treated as a specific defect.
- Evidence examples favour detailed descriptions (SOS-related text first for safety), not a random sample.
- Theme shares overlap and use 1-3-star reviews, not only 1-2 stars.
- Self-selected fetched review sample; averages are not the displayed store rating.
- Edited review dates can change cohorts. Reply delay is not calculated.
- Partial boundary months and small version samples are not like-for-like comparisons.
- Raw scraper timestamps and the cutoff use the computer's local clock.
